"Let all that you do be done in love" 1 Corinthians 16:14

Physical Education Policy

Intent

At St Thomas of Canterbury Church of England Primary School, we intend for our curriculum to enable children to develop skills, knowledge and vocabulary in a broad range of sporting activities. We understand the importance of how physical activity can have a positive impact on a pupil's health and wellbeing. It is therefore our intent to provide an inclusive, broad and balanced PE curriculum that ensures all children will benefit, whether through enhancing existing skills, learning new skills or being introduced to new sports, clubs, teams and organisations. Through a progressive curriculum, pupils will develop confidence, reflection skills, positive growth-mindset and resilience to persevere with activities that once may have felt too difficult. As a result, children have the opportunity to develop whole child skills and embed our school character values, such as fairness, honesty and respect.

General Aims

Our PE lessons aim to provide opportunities for pupils to:

- Lead healthy, active lives.
- Foster a love for and enjoyment of being active.
- Develop 'fitness for life' through promoting the health benefits of regular exercise.
- Enjoy all aspects of physical activity which they can then readily talk about.
- Contribute to the physical development of every child.
- Develop fundamental movement skills which include: running, jumping, throwing and catching.
- Develop a range of skills that can be applied in other contexts.
- Enable pupils to access a broad range of opportunities to extend their agility, balance and coordination, individually and with others.
- To develop an understanding in children of how to succeed in a range of physical activities, and how to evaluate their own success.
- Enable pupils to engage in competitive (both against self and against others) and cooperative physical activities, in a range of increasingly challenging situations,
- Develop self-esteem, confidence and social skills.

Health and Safety

We recognise that participation in PE and physical activity contains an element of risk. Staff are responsible for ensuring that they are familiar with safe practice to reduce the element of risk to the absolute minimum within their control. Staff are aware of pupils who have special needs with regards to physical activity and make special provision for needs where appropriate e.g. physical disability, asthma, etc. Staff know about the safe practices involved in moving and using apparatus.

We encourage the children to consider their own safety and the safety of others at all times. They are taught a safe code of practice in the carrying and setting up of equipment. In addition, annual safety checks are made on equipment by Universal Services.

Staff must be present when children are using school apparatus. Before the apparatus is used, the teacher must check the positioning, fixing and make sure the height is suitable for the size and

"Let all that you do be done in love" 1 Corinthians 16:14

ability of pupils. Safety mattresses (crash mats) and spring boards should not be used during class lessons.

Pupils must change into their school PE top and shorts. During the winter months, children are encouraged to wear a tracksuit over their PE kit. Pupils must wear trainers for outdoor PE lessons and engage with bare feet for indoor PE lessons. Children must ensure their hair is tied back before engaging PE lessons.

Jewellery must not be worn during PE lessons. This is the responsibility for the owner. Children who cannot remove earrings themselves must not take part in PE lessons or school sport. As engagement in PE is compulsory under the National Curriculum, we encourage adults to wait until the summer holiday to have their child's ears pierced. Teachers will not take out or replace children's earrings. We encourage children to remove their earrings at home on days that they have PE lessons.

Early Years and Foundation Stage

We encourage the physical development of our children in the Reception classes as an integral part of their work. As the Reception classes are part of the Early Years Foundation Stage of the National Curriculum, we relate the physical development of the children to the objectives set out in the Early Learning Goals, which underpin the curriculum planning for children aged three to five years of age. We encourage the children to develop confidence, control of the way they move, and care in the handling of tools and equipment. We give all children the opportunity to undertake activities that offer appropriate physical challenge, both indoors and outdoors, using a wide range of resources to support specific skills. We prioritise the learning of fundamental movement skills as we know they are essential for pupils to be competent in accessing our ambitious PE curriculum.

In EYFS, lessons include an introduction to PE, fundamental movement skills, gymnastics, ball skills, dance and games.

Key Stage 1 and Key Stage 2

The PE curriculum aligns with our core values, our whole child approach to PE and the objectives laid out in the National Curriculum. Progression is built into the curriculum map to ensure pupils are increasingly challenged as they move up through the school.

The long-term curriculum map (appendix 1) accounts for whole child objectives (social, emotional and thinking) and objectives against gymnastics, gymnastics, dance, fitness, rebalance and ball skills, from EYFS to Year 6. The map details how fundamental skills are developed throughout each key stage. Schemes of work for each unit (appendix 2) detail clear progression within a single unit of lessons, as well as which whole child objectives are developed and how lessons are adapted to meet the needs of all pupils. Individual lesson plans cover how children develop specific skills and evaluate on their own progress throughout each lesson.

In Key Stage 1, lessons include gymnastics, dance, fitness, rebalance, invasion games, target games, athletics, team building, and net and wall games.

"Let all that you do be done in love" 1 Corinthians 16:14

In Key Stage 2, lessons include fundamental movement skills, swimming, gymnastics, dance, fitness, netball, tennis, football, athletics, outdoor adventure activity, tag rugby, rebalance, ball skills, dodgeball, handball, basketball, hockey, rounders, volleyball and cricket.

Children must always engage in PE lessons when they are in school. If they cannot take part in the physical activities, children are encouraged to take PE support card (appendix 3) and follow the given instructions. This ensures all children can progress in whole child objectives during every lesson.

Swimming and water safety

By the end of Year 4, pupils should be taught to:

- > swim competently, confidently and proficiently over a distance of at least 25 metres,
- > use a range of strokes effectively [for example, front crawl, backstroke and breaststroke],
- perform safe self-rescue in different water-based situations.

It is very important that all staff, parent volunteers and other adults working with children work within an understanding of professionalism and confidentiality. You may see children struggling with a task, being upset, misbehaving or see/hear something that concerns you. It is vital that you do not share anything about specific children with friends, family or a child's parents, even if you know them well. Please discuss any issues with the class teacher or trip leader. It is the teachers' responsibility to inform parents of any concerns relating to a child if appropriate. As a volunteer you are in a position of trust; we expect you to maintain strict confidentiality at all times in accordance with the Code of Conduct. All pupils and adults in school have a right to privacy, so matters observed or discussed in/out of school during the visit must be treated as confidential. Failure to comply will result in the school having to refuse your help in the future. On occasions it may also be necessary to ask volunteers to sign a non-disclosure agreement (NDA).

We also take your right to privacy seriously. A privacy notice for volunteers is available from the school website (http://www.stthomaspri.org/)

Sports Premium Grant and Sports Premium Statement

The government is providing additional funding to improve the provision and sustainability of physical education and sport in primary schools. This funding - provided jointly by the Departments for Education, Health and Culture and Media and Sport - will be allocated to all primary schools. Our school is entitled to £16,000 per year plus £10 per pupil. More information about how we as a school personally allocate our funding each year can be found on the school's website.

Our Sports Premium statement is updated annually. This can be found on the school website. The statement ensures the school are meeting the five key performance indicators (see below) every year.

- _ Key Indicator 1: The engagement of <u>all</u> pupils in regular physical activity.
- Key Indicator 2: The profile of PE and sport is raised across the school as a tool for whole-school improvement.

"Let all that you do be done in love" 1 Corinthians 16:14

- Key Indicator 3: Increased confidence, knowledge and skills of all staff in teaching PE and sport.
- Key Indicator 4: Broader experience of a range of sports and activities offered to all pupils.
- Key Indicator 5: Increased participation in competitive sport

Assessment

Each teacher regularly monitors their current class. They assess the progress of their pupils as they observe them during lessons, and through assessment against specific objectives set out in the schemes of work. We have a clear expectation of what the pupils will know, understand and be able to do at the end of each Key Stage. The PE subject leader will evaluate, monitor and update the scheme and resources.

Disability Equality Scheme

At St Thomas of Canterbury Church of England Primary School we recognise our duties and responsibilities under the Disability Discrimination Act as outlined in our Disability Equality Scheme and Action Plan (December 2007). It is our aim that through specific and accurate planning, resource allocation, differentiated teaching and use of adult intervention and support (where necessary), that every child, irrespective of disability, will have full access to the curriculum and feel and be enabled to participate actively in developing to their full potential their skills, knowledge and understanding. We will ensure that all reasonable adjustments are made to help both children and adults with identified special needs and disabilities to participate in the Physical Education curriculum.

Extra-Curricular Opportunities

St Thomas' provides a range of PE-related activities for children before, during and at the end of the school day, which are led by either school staff or external providers. These activities encourage the children to further develop their skills in a range of areas and to lead an active lifestyle. The school sends out details of the current club activities to parents on Parent Hub twice per year. St Thomas' also participates in regular fixtures and tournaments. This introduces a competitive element to team games, and allows children to put into practice the skills that they have developed in their lessons and during school clubs. These opportunities foster a sense of team spirit and cooperation amongst our pupils.

Outdoor Lunchtime Provisions

Due to Sports Premium funding and support from the PTA, St Thomas' is able to provide an outdoor gym, a KS1 and KS2 trim trail, an astro area, playground and field markings, basketball and netball nets, and various smaller pieces of equipment. This ensures, all children are given regular opportunities to engage in a range of physical activities and can experience success each day.

The Daily MileTM

'Compared with indoors, exercising in natural environments has greater feelings of revitalisation and energy and less tension, confusion, anger and depression' (Coon, 2011). The Daily Mile™ is an initiative aimed at improving the physical, social, emotional and mental health and wellbeing of children − regardless of age, ability or personal circumstances. St Thomas' has a Daily Mile track built around the school playground and children are encouraged to run on the track for at least fifteen minutes per day.

Adapt lessons using the STEP

Space - increasing or decreasing the area or changing the distance

Task - changing the demands, the rules of the activity, the

in which to score points.

approach:

Can I develop confidence and accuracy

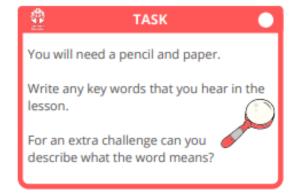

when tracking a ball?

		number of times the child is to
		repeat the task or length of time
		to complete the task.
		Equipment - changing the size of
		the target, level of equipment,
		amount of equipment, height of
		the equipment or the
		arrangement of the equipment.
		People – consider having children
		work alone, with a partner, bigger
		teams, smaller teams, mixed
		ability or grouped by ability.
		Consider making a child a leader
		or follower.
3	Can I explore and develop a variety of	Adapt lessons using the STEP
	throwing techniques?	approach:
